Special design Wedgmount® Precision Levelers

AirLoc offers its customers the largest selection of Wedgmount® Precision Levelers that can be delivered on short notice. This gives our customers a technically optimal and economical choice of Wedgmount® Precision Levelers for different applications. If there are advantages to be gained for our customers in having a custom-tailored solution, our experienced team of engineers can develop a custom Wedgmount® Precision Leveler that perfectly suits the application or the corresponding machine. Here you see an example of a Wedgmount® Precision Leveler that had been successfully implemented for specific customer requirements and according to our recommendations.

Large area Wedgmount® Precision Levelers VAP

VAP Wedgmount® Precision Levelers enable wide area load distribution for floors with low load bearing capacity or when large loads have to be set down softly. This is a very efficient solution which is available using standard components in many variations.

Our application engineers will be glad to recommend you the optimum solution. Please contact us!
