Product overview

**Wedgmount® 504-EcoFixx - fast and precise leveling**
The Wedgmount® precision levelers of the type EcoFixx provide a compact and rugged design, a fast and precise leveling with low leveling torque and can be optimally placed under machines where space is limited. [Wedgmount® EcoFixx - Types](#)

**500-QFixx – our new anti vibration mounts**
With the new type 500-Qfixx AirLoc offers a very compact and rugged Wedgmount® Precision Leveler. [more](#)

**Vibration isolation pads**
AirLoc’s new generation of vibration isolation pads are highly developed materials. Excellent resistance to oil, lubricants and fuels results in ideal materials for isolation pads. [more](#)

**Jacmount® Adjustable Levelers**
Jacmount® Adjustable Levelers are characterised by their simple and effective construction. A broad range of products makes it easy to select the elements to suit your needs and helps you keep costs down without having to compromise quality. [more](#) [Help for the selection](#)

**Wedgmount® Precision Levelers**
AirLoc offers the world’s largest selection of Wedgmount® Precision Levelers. Heavy loads of up to 110 tons per Wedgmount® can be quickly aligned to within of 1 / 100 mm accuracy. [more](#) [Help for the selection](#)

**Horizontal supports**
Today’s machines have light and compact construction on the one hand; on the other they have fast cycle times and therefore high dynamic forces. AirLoc horizontal supports help you keep machine movement under control. [more](#)

**Accessories**
AirLoc accessories are suited perfectly to the AirLoc products, which guarantees a long and reliable service life. [more](#)

**Vibration-isolated foundations**
Foundations isolation systems provide a machine or group of machines with a rigid support base while protecting the equipment from disturbing vibration inputs. [more](#)
